

UNIMA Eesti Keskus – UNIMA Estonia

Dear UNIMA friends,
dear Colleagues!

UNIMA Estonia is very much interested in having puppet theatre groups from everywhere to show their performances in Estonia, in Tallinn or some other towns during the year of UNIMA 90, in 2019.

Every theatre interested in visiting Estonia is welcome. We are interested in both performances and workshops. The Estonian audience would see many different kinds of puppet and object theatre and our own puppeteers could learn from the experience of our colleagues from abroad. For the foreign groups we can offer a possibility to meet new audience, pleasant days visiting Estonia, meeting Estonian colleagues.

The only problem is that we have not enough financial support to receive guests here.

But we have heard, that the authorities of some countries are specially interested in presenting their theatre groups in abroad. We've had such an experience already in May 2017, when the group "Stuntmen of Theatre" (Adam Walny, Tadeusz Wierzbicki and Krzysztof Zemlo) from Poland played in Tallinn. The financial support of the Polish authorities covered almost all costs related to the performance presentations. And now we are facing to have a new partner, again from Poland. H. Ch. Andersen Theater from Lublin is planning his presentation in Tallinn between July and September 2019 on the similar terms.

If any other country could find a possibility of having funds to show their culture (and their puppet theatre in special) in abroad, we'd have them here with the greatest pleasure.

On behalf of UNIMA Estonia
